Bachelor of Science in Computer Science

#### Nation | Central University | September 2021-

MJ2023 f Computer Science and Information Engineering

**Thesis Topic:** A Graph-base Approach for PM2.5 Prediction

Supervisor: Professor Min-Te Sun

Developed an innovative PM2.5 prediction system, combining AirBox and EPA data with advanced techniques . The DCRNN-GS model outperformed the state-of-the-art in predicting PM2.5 levels for the next 24 hours based on the past 24 hours of data. This research provides valuable insights for managing pollution and protecting public health in Taiwan.
