## PROFILE SUMMARY

Software Engineer with 4+ years of experience in web development and system support, with practical experience in cloud infrastructure, DevOps workflows, and containerized environments. Experienced in collaborating with cross-functional teams to support scalable and reliable systems, and motivated to grow into a Cloud or Platform Engineering role.

## WORK EXPERIENCE

### Ticketmaster

Software Engineer

JUN 2024 - DEC 2025

- Developed and maintained frontend and backend features for Ticketmaster platforms across Southeast Asia, including Singapore, Thailand, and the Philippines, using PHP (Yii Framework), JavaScript, HTML, CSS, Bootstrap, SQL, and AWS.
- Improved engineering team productivity by leading tool transitions from Redmine → Asana → Jira, including board setup, workflow rules, automations, Agile processes, and Confluence documentation.
- Designed and implemented Slack bot integrations for Jira using Node.js, AWS Lambda, API Gateway, with automated deployments via GitLab CI/CD and Terraform.
- Migrated infrastructure to Amazon EKS Auto Mode, managed internal services (e.g., Gitea) using Argo CD, and deployed Helm-based applications following GitOps best practices.

### RS Public Company Limited

Software Engineer

SEP 2020 - DEC 2021

- Built and maintained WordPress websites with custom themes and basic SEO optimization.
- Resolved production issues to ensure system stability and on-time delivery.
- Collaborated with designers and developers to deliver user-friendly, high-quality websites.

### Pronto Marketing

Software Engineer

May 2019 - Aug 2020

- Developed responsive WordPress websites using HTML, CSS, JavaScript, and PHP.
- Collaborated with cross-functional teams in an Agile environment to deliver high-quality web solutions.
- Provided technical support and mentored new hires on web technologies and best practices.
